**If you are planning to order detectors for an AdBlue tank, please ensure that your vehicle is compatible with Neste's heavy equipment AdBlue nozzle with a magnetic lock. This nozzle type is in use at all Neste stations for heavy equipment. We are aware that some of the vans and small trucks on the market are equipped with an AdBlue tank which is not compatible with the heavy equipment nozzle.**

**VEHICLE-SPECIFIC INFORMATION**

1	Vehicle's registration number	Vehicle make	Vehicle model	Year of manufacture (yyyy)
	Vehicle identification number (max. 7 characters) *	Datapass (kilometer tracking) <input type="radio"/> Yes <input type="radio"/> No		Quantity of detectors to be ordered for the vehicle Diesel                      AdBlue                      Fuel oil
